1. Name three types of visuals you can create in Power BI.

Bar chart, line graph, pie chart

2. How do you add a slicer to a report?

Choose Slicer option from available visuals

3. What is the difference between a bar chart and a column chart?

The difference between a bar chart and a column chart is that the former uses vertical rectangular bars to represent data, while the latter uses horizontal rectangular bars

4. How do you change the color of a visual background?

Right click on the background and choose "format canvas" and change color there.

5. What does "drill-down" mean in a visual?

In the context of visual data analysis, "drill-down" refers to the ability to explore data in greater detail by moving from a higher-level summary to more granular, specific information.

6. Create a bar chart showing SalesAmount by Region.

ok

7. Add a slicer for Quarter to filter all visuals on the page.

ok

8. Format the bar chart to show data labels.

ok
